

## In addition to the General conditions of TYRA

*When you create a user in the TYRA, a user agreement needs to be approved in the app. This is just an excerpt from this must be seen as information to clarify for the guardians who choose to not create users in TYRA that TYRA is used as a service is and why.*

Bayou AB ("the Bayou") provides the service Tyra ("TYRA"). TYRA is a tool intended for Preschools and after-school activity centres, and guardians of these preschool and after-school centres ("School"). Through the application the school can convey the information to the guardians and compile necessary information of children (the "service").

Even if you choose not to download and use TYRA, your child will be registered in TYRA so that the School can administer its daily operations.

The information that will be stored in the TYRA is, for example, name, address, birthdate, allergies, photos and other personal data supplied in TYRA regarding the children, but even others personal data may be stored in TYRA, for example information about you as a guardian or other relatives for example, Grandma and Grandpa. This data will only be voluntary added by the users.

I understand that the added content in TYRA, such as images and text are owned by the School.

I understand that the school use TYRA to manage information relating to my child and administer the daily operations and I understand that this information will be treated in accordance with applicable law.

You as an end user may not share the materials provided in the TYRA, this is for the School's property. That is, it is not allowed to share this information through social media such as Facebook or Instagram etc.

You cannot take screenshots, but you are allowed to download the material that the app has given support to download, such as your child's portfolio.

For complete information about how the Bayou handle personal data of users of the app, please contact [hello@tyra.io](mailto:hello@tyra.io) by email on TYRA

# Information about TYRA

We are excited to announce that we will try **TYRA** at our pre-school! 👍

TYRA is simply an app to manage documentation and communication for our preschool in a modern, digital way. This is to avoid using too much paper or having to send emails (that so easily disappear). We can spend more time with the children and you get all the information aggregated in one place. 😊

It is of course completely free to you.

TYRA is completely GDPR compliant and a personal data processing agreements are written between us and Bayou AB, who developed TYRA.

All data is sent encrypted with TLS and stored on servers in Sweden. We also owns all of our data of course, this is defined in the agreement with the Bayou AB.

For more information about security, please contact support@tyra.io

## How you create your user in TYRA

(there is also a separate information sheet on this)

🌸 When you received an sms that you are invited to TYRA and you can download TYRA from AppStore or the Android market (Google Play)

🌻 Enter your mobile number and press Next, a new text message with a verification code will be sent, enter that code

🌺 Then fill in your contact details etc

**DONE** 👍

## Some of the reasons that we chose TYRA

🧡 Super easy to use

🧡 You will have a better insight to what we do

🧡 A secure way to share information

💙 The children can easily tell you about their day with support of TYRA

💜 Information will be easy to find

🖤 No more emails that are forgotten or lost

❤️ Easier to manage the children's hours and attendance

🧡 Share documents and even sign them digitally

🧡 Your child's own "portfolio" where we get a documentation of the child's development and learning

🧡 We can customize the functionality

🧡 Supported language are Swedish, Spanish, English, Arabic and Norwegian (it depends what language you set on your unit)

💙 TYRA is being developed by a team that is 100% dedicated to continuously improving and customizing the platform for our needs. This gives us and you a great opportunity to influence the design and functionality of the future.

## Some of the features in TYRA

Read about events and activities at the school.

Easy to handle contact info and also getting a great overview of all the children

Scheduling of both teachers and children

Both parents and teachers can easily make notes about a child and share it with each other

Easy to handle absence

Have a list of everything the child needs, and if something needs to be refilled, like diapers, a notification will be sent

Super easy to share photos and video with parents

All the contact information to the school in one place, easy to find

Handle individual documentation for each child

Create your own list of kids, parents or teachers

An admin interface to handle everything in an easy way

Upload and save PDF documents. You can see who has read it and even request a signature

An easy Lost and found

Document how the children have slept, eaten and more.

**If you have more questions or suggestions about the platform, please contact TYRA app directly on**
